CARPENTER HIT BY LIGHTNING IS RECOVERING

Trumbull Man Is In Hospital—Widespread Damage From Thunderstorm.

Peter Christianson of Trumbull, the carpenter who was struck by lightning during the storm that swept the city yesterday, was improving today at St. Vincent's hospital. His neck was severely burned.

Buildings were damaged, trees were blown down, trolley cars were stalled when their motors were burned out, streets were flooded, telephones out of order and many women fainted in the storm.

Among the buildings struck were the railroad station, Mosee club, courthouse, the Congregational church at Newtown, the Post Publishing Co. office, and the home of Frank D. Bell, vice president of Meigs & Co., in Unquowa hill, Fairfield.

Barns in Wilton and Westport were struck and burned to the ground. Nearly every cottage on Fairfield beach was affected.

A bolt that entered the home of Mr. and Mrs. Charles Merritt of Milford, struck the floor and burned one shoe of Miss Margery Merritt, and slightly burned her foot.

A ladder on the building of the D. M. Read Co. fell through a glass skylight and caused commotion in the building.

Thirty trolley cars were stalled when their motors burned out. Passengers were frightened.

"The Rumford Hill," a cruising yacht from New Jersey, entered the harbor after the storm with its rudder missing. The passengers experienced difficulty weathering the blow.

Some telephone poles were toppled over and in some instances trees knocked down wires.

The south gable of the county jail was struck by a bolt of lightning and partly broken off. The prisoners, however, were unaffected and weren't allowed to stop working. Three valuable shade trees in front of the buildings were blown down.

DR. MELTZER TELLS HIS TREATMENT FOR INFANT PARALYSIS

New York, July 14—Dr. S. J. Meltzer, of the Rockefeller Institute, released many inquiries today regarding his treatment of infantile paralysis which was the only one recommended at the special conference of the academy of medicine held last night to discuss the disease now epidemic in New York city. He urged the treatment of all cases by intraspinal injection of solutions of adrenalin.

"This procedure," said Dr. Meltzer, "may save life and in surviving cases it may reduce the extent of the final lesion. There is no danger involved. Monkeys stood as large a dose as two cubic centimetres in a single injection. However, in human infantile paralysis the injections should begin with a dose of five cubic centimetres of adrenalin until more is learned of the effects."

The physician declared he had great faith in this treatment because of the remarkable results it accomplished with monkeys which had been infected with infantile paralysis.

There was a great demand today for the new health cards which the department of health has begun to issue for the benefit of citizens who wish to leave New York and fear that the movements will be hampered with extreme quarantine in other places.

Health Commissioner Emerson said that the certificates were not passports which had to be accepted and he considered that in some towns where absolute quarantine against New York had been declared the authorities might refuse to honor them.

ACTIVITIES OF SHARKS LAID TO SUBMARINES

Longhampton, N. Y., July 14—The Republican-Herald sets up the interesting theory that the shark raids on the Jersey coast are due to the war operations, submarine and surface, in the seas around Europe which have frightened them westward and that the sea monsters, common in European waters and especially around Ireland and in the Mediterranean Sea have become accustomed to feasting on human flesh during the past two years because over 100,000 people have been sent to sea bottoms by submarines of both major and minor fleet operations.

It argues that like the wolves of Russia after Napoleon's defeat, and in this war and the lions of Africa after the Boer war, the sharks have become man-eaters because of the opportunity of the war.

BRADSHAW'S HOME IS STRUCK BY LIGHTNING

Lightning struck and demolished a chimney on the home of James V. T. Bradshaw, 2600 North Main street, during the terrific storm of yesterday afternoon. The bolt following the chimney crashed through the roof into a sleeping room in the second story. A large quantity of plaster and lath was torn from the ceiling. The bricks were knocked from the chimney with such terrific force that several went through the roof at points more than a dozen feet from the chimney. The damage is more than \$100.

WEATHER FORECAST

New Haven, July 14—Forecast: unsettled tonight and Saturday. Connecticut: partly cloudy tonight and Saturday, moderate north winds.

Pleasant weather with moderately higher temperatures prevails generally in the central and western districts. Unsettled, cloudy weather prevails in the eastern section of the lake region and New England. A tropical storm of considerable energy is central near Charleston, S. C. It is causing heavy local rains and wind velocity of 60 mph per hour. The temperatures are lower in the northeastern districts.

THE SMITH-MURRAY CO.

DON'T YOU WANT A BEACH SET LIKE THIS?

ESTABLISHED 1865.

\$100 Is Often Cheaper Than \$75.

Cheapness isn't simply a matter of price. It's the value and service that counts.

A Diamond Ring at \$75 is not, necessarily, as cheap as one at \$100. The \$100 Ring has certain things, which the \$75 Ring lacks. Those things make it really of greater value—in proportion to the price, than the \$75 Ring.

Hence, all things considered—the \$100 Ring is the cheaper Ring. FAIRCHILD GENUINE BLUE-WHITE DIAMONDS illustrate just the point we wish to make clear. Such BRILLIANCE—such COLOR—such PERFECTION OF MATERIAL is not found in the Diamonds that have ONLY low price to sell them.

See the FAIRCHILD Diamonds at \$100, and know about the quality and service they'll give you.

G. W. FAIRCHILD & SONS, Inc.

"AT THE SIGN OF THE CHIMES."

997 Main St.—Arcade Corner.

Store closes at 5 P. M. daily, except Saturdays, the closing hour is 9 P. M.

THOUGHT THRONGS WOULD NEVER CEASE

Crowds Swarm Around the Expert Who Is Demonstrating the Famous Dr. Pierce's New Scientific System Purifier—Wilderbs (Full Extract) is the Name

"Never in history have so many people attended with interest the opening of any medicinal demonstration as were at Hindle's (Main and State Street) store, when the famous Dr. Pierce's new scientific alternative, Wilderbs (full extract) was introduced by Dr. Pierce's representative. This new health builder is the result of Dr. Pierce's long experience in medical practice and research. It is a new combination of old fashioned forest plants so scientifically arranged that at last it fills the long-needed want for sickly, run-down and emaciated people. The name and great reputation of Dr. Pierce has been so instilled into the minds of nearly everyone that all now receive his new health reconstructor with absolute confidence. The quick and far-reaching action of Wilderbs (full extract) is exemplified in that it is a stomach and bowel medicine and these troubles cause a vast multitude of other ailments. One trouble brings about another, but in making the stomach and bowels healthy the entire system should become normal and healthy. Thousands will rejoice at Wilderbs (full extract) as most of us are continually fretting about our poor health, due to overwork, over-indulgence, eating too fast or too much and have consequently become run-down, irritable, have coated tongue, bad taste in mouth, and lack ambition or are too easily excited. One cannot help but like Wilderbs (full extract) as it tastes so good. The assistant now at Hindle's (Main and State St.) will be pleased to tell anyone about the wonderful merits of the medicine, let you test it and judge for yourself."

Tell the public in a little advertisement in the Evening Farmer what you have for sale or what you desire to purchase. The results are instantaneous.
